Remove sections "A" and "B" from magazine. Trim bottom margin of "A" and top margin of "B"...OR trim only the "A" margin.

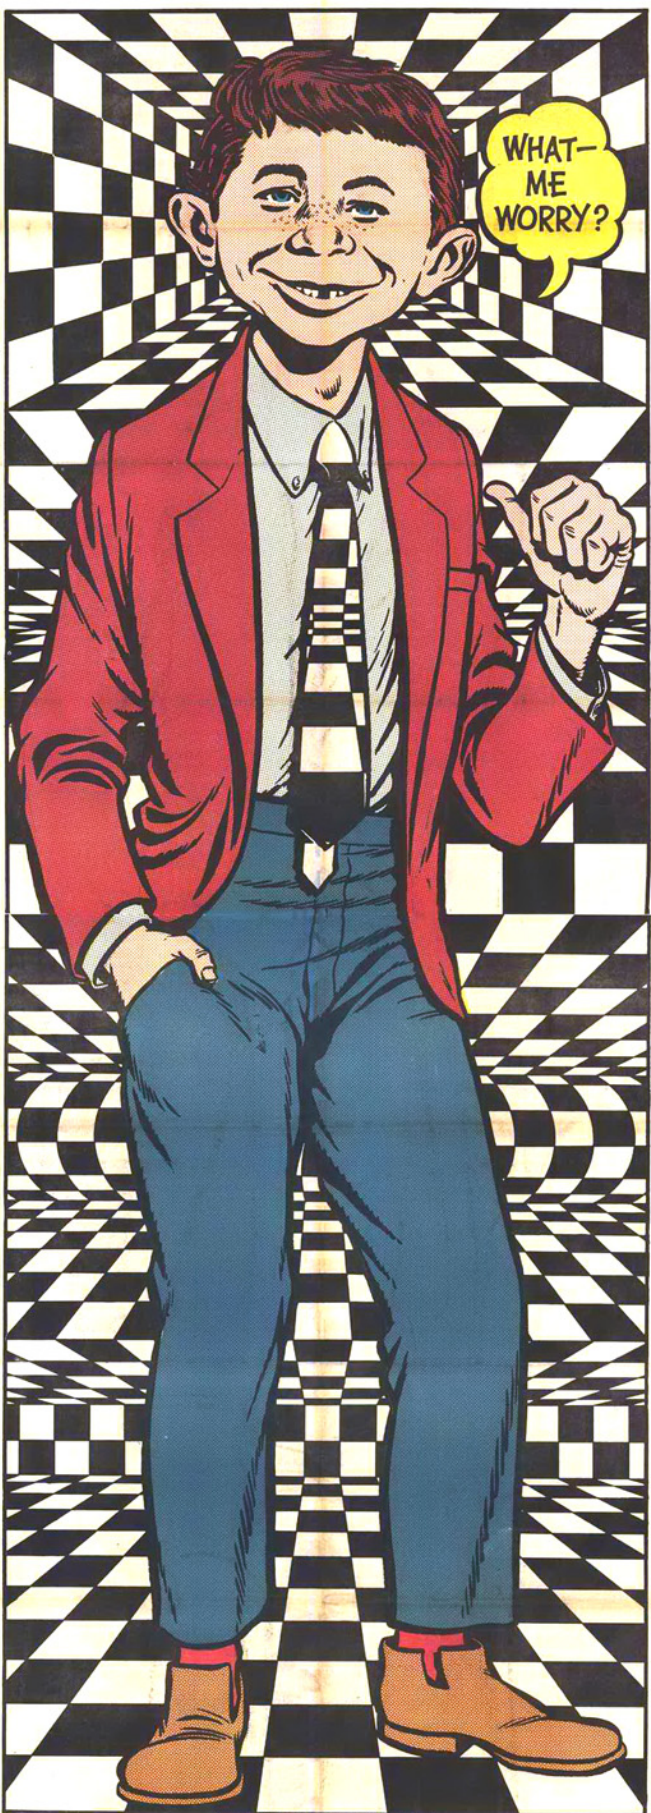

Butt trimmed edges of "A" and "B" together and stick on back with tape...OR place trimmed edge of "A" over "B" margin, and glue.

If finished job looks like this, you obviously can't follow simple directions. Buy new copy of annual... heh-heh... and try again.
