Introduction

Who reads book introductions anyway?

Typically, I don't even want to look at a book's introduction because I always think it is going to be dull and unnecessary—plus I just want to get to the main course. For me and my company, Modern Dog, this book, *1,000 Dog Portraits*, is very personal and timely.

I am thrilled to write about the production and compilation of a project that combines two things I love: illustration and dogs.

Someone once told me that dogs mature at about the level of a two or three year old, then they stay at that level for the rest of their lives. They are needy, cute, funny, smart (OK, sometimes dumb), demanding, and silly. Dogs give love unconditionally, forgive immediately, and are willing to do anything to make us happy. Like many others, I cannot imagine my life without them.

When I was growing up, my family had a Saint Bernard named Lyka. She was the definition of "gentle giant." Even my cat, Noodles, used to beat her up, swatting with her mighty clawed paw and giving poor Lyka a bloody nose on more than one occasion. In the mid 70s, my Dad took my brother and I hiking in Washington state's Olympic Mountains. Lyka started acting peculiar on that trip, and only later did I realize why her behavior was so odd. In the middle of the night while we were sleeping, Lyka made this low grumbling sound that I had never heard before. We could not get her to stop. The next morning, I saw my Dad pack up our belongings faster than you could say, "Look at those bear tracks circling our tent."

Another reason I like spending time with my dogs is that they seem to think I am the most fabulous person in the world. My Cairn Terrier, Conan, gives me the closest thing to a human-style hug that a dog can give. When I return home, he sits like a woodchuck on his rump and waves his front paws in the air. I bend down while he wraps his legs around my neck, acting like he has not seen me in days (this happens even if I leave the house for ten minutes). His love is so sweet and pure, my heart just melts.

It's no secret that my design company is involved in a lawsuit over dog illustrations that we allege were taken from a book about my company's work published in 2008. In fact, the offer to curate, author, and design *1,000 Dog Portraits* came during our battle which, as I write this introduction, means that we have been engaged for more than twenty-two months.

In December 2012 during a conversation with the attorneys representing the defendants, one of them told us about a case she was involved with that included drawings of beagles. The attorney had lost the case, and offered this advice, "You know, there are only so many ways you can draw a beagle." I remember thinking that sounded ridiculous, so I took it as a challenge. The first chapter in this book, "How Many Ways Can You Draw a Beagle?" is dedicated to the attorneys representing the defendants.

But this book is so much more than a demonstration about all the different ways artists interpret beagles. And compiling a book with a limited number of spots to fill means some good work had to be left out (including many beagles). I hope that what remains inspires and reminds you why we collectively love dogs and why sometimes a painting or drawing speaks so much louder than a photograph or what is left in our memory.

I truly love this book. Working on it during one of the most stressful chapters of my working career has kept me sane. And I thank you for reading this introduction.

Acknowledgments

This book is a celebration of original artwork created by hundreds of artists from all over the world. Without their contributions, this book would not exist.

Modern Dog Design Co. gratefully acknowledges attorney Jane Shay Wald, partner at Irell & Manella LLP, Los Angeles, California and attorney Steven Fogg, partner at Corr Cronin Michelson Baumgardner & Preece LLP, Seattle, Washington, for providing the "inspiration" behind this collection of dog portraits.

About the Author

Robynne Raye is a graphic designer living in Seattle, Washington. She loves dogs, vacations, books and making fun of attorneys.

Designers Sam Maxwell and Nina Naeher worked on the design and production of the book with Robynne. Elise Butters organized the entries, while Winnie and Conan offered moral support.

The End

"Some of our greatest historical and artistic treasures we place with curators in museums; others we take for walks." —Roger A. Caras, *Animal Welfare Activist*

In this beautiful tribute to our four-legged friends, Modern Dog's Robynne Raye sorted through thousands of dog portraits to find the very best. *1,000 Dog Portraits* is a compilation of quirky, fun, fanatical illustrations, paintings, collages, and drawings from designers and artists around the globe. From hounds to herding dogs, and mutts to terriers, there is a diverse range of artistic renditions, from naïve and abstract to traditional portraiture.

This collection is a study guide on style for the budding artist as well as a book of inspiration to the practicing professional. There's even a chapter called, "How Many Ways Can You Draw a Beagle?," showing myriad ways an artist can depict a single breed of dog.

So rev up your illustration muscles, and be inspired by this loving tribute to man's best friend.
